Status of the Claims

The response with amendments filed 07 April 2004 has been received and entered.

Claims 1-4, 7-10 and 16-33 have now been presented for examination.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Terence Bogie on 6 May 2004.

The application has been amended as follows:

IN THE CLAIMS:

In claim 1, at line 12, after "effective to" insert -- directly --.

In claim 9, at line 15, after "effective to" insert -- directly --.

The following is an examiner's statement of reasons for allowance: The prior art teaches removal of an appropriate amine protecting group, but by cleavage and subsequent spontaneous decarboxylation. The protecting groups in Pohl et al. (1997) and Reidel et al. (1993) are specifically designed to have this property (Pohl et al, page 6704, column 2, first three full paragraphs.) Direct removal of the protecting group is neither taught nor suggested. Using

enzyme from *Sphingomonas paucimobilis* for the method is neither taught nor reasonably suggested.

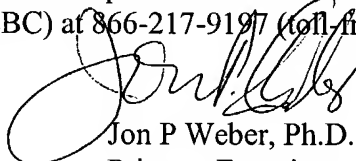

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1-4, 7-10 and 16-33 are allowed.
